

We agree to take PRIDE in our studies!

Possession

Taking control of your learning.

IH Brisbane - ALS can help us, but we are responsible for our learning

- We will speak up if there is something we don't understand or need help with.
- We will be on time for class.
- We will participate willingly in class activities.
- We will do as much study and practice outside of class as we can.

Respect

Treating everyone fairly and with sensitivity.

For everyone to be able to benefit from the classes, we will respect each other.

- Staff knowledge and experience as experts is accepted.
- We will switch our mobiles to silent in the classroom, and leave the classroom if we have to take a call.
- We will be understanding of individual and cultural differences.
- We will be flexible and open to others' ideas.
- We will be supportive, fair and honest in our relationships with each other.
- We will respect each other's privacy.

Integrity

Being truthful and sincere.

We are in control of our actions, and will act in the best way possible.

- We will behave as responsible adults.
- We will accept any reasonable penalty for our behaviour.
- We understand that assessment policies and procedures are clear and apply to all, and the school will apply them equally.
- We are responsible for what we do and say.
- We do not claim the work of others as our own.
- We will follow all school rules and regulations.
- We will speak up when there are problems and work together to find solutions.

Dive in

The more you give, the more you get.

We understand the more we put in, the more we get out.

- We will complete all tasks as required to the best of our ability.
- We will participate willingly and fully in class activities.
- We will try and find ways to use English outside of class and school, and integrate into Australia as much as we can.

English only

It's why we are here!

We understand that speaking English is good for our ability, and includes everyone.

- We will speak English in the school wherever and whenever possible.
